

# Charlestown Park Trail

Charlestown Township, Chester County, PA

Temporary Parking

P

The Charlestown Park Trail is located in Charlestown Park bordered by Coldstream and Township Line Roads in Charlestown Township, close to Phoenixville. The Trail is a paved loop trail on the grounds of Charlestown Park. The park area was once part of the Valley Forge Army Hospital which provided medical care and rehabilitation for thousands of soldiers during World War II and the Korean and Vietnam conflicts. The 1 mile trail is an easy walk with small rolling hills and lots of curves crossing through some shady areas. Trail users should simply follow the trail and enjoy the scenery, or check out the Nature Trail, which intersects the paved trail.

**PARKING:** Parking for the trail is located on Academic Way off Township Line Road northeast of Coldstream Road. There is usually a parking lot directly on the right after the turn onto Academic Way. Due to Park construction, temporary parking is located further down Academic Way on the right.
